

NHIVNA and BASHH are jointly developing a Competency-based Training and Assessment package, similar to the successful STIF Competencies already running in GUM/STI clinics

We are looking for nurses to enrol in the pilot phase of the project for either the 'Core' package (Band 5/6) or the 'Advanced' package (for senior nurses working in HIV care)

If you are interested please contact us by e-mailing nhivna@nhivna.org

NHIVNA *Core Competency*

NHIVNA *Advanced Competency*
