

13th Annual Conference of the
National HIV Nurses Association (NHVNA)

Anna Bamford

Sussex Community NHS Trust

16-17 June 2011, Arena and Convention Centre, Liverpool

Sussex Community 
NHS Trust

Community HIV Support - Future model and challenges

Anna Bamford

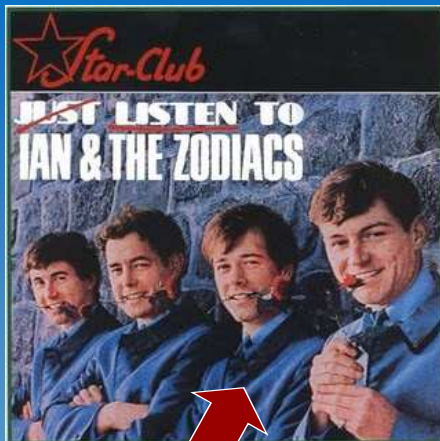

Team Manager, Brighton & Hove and West Sussex

Liverpool – home to...

(oh, and the Beatles...)

(It's this one)

HIV care in the community

Has continued to evolve over the last eight years ↑ multiple complex health and social care issues

Need for more care co-ordination, joint working and case management

↓ in HIV specific services, ↑ liaison with generic and primary care services including voluntary organisations

Debates on what is our core business depending on geographical areas

What it was...

West Sussex area

Four clinical nurse specialists

West Sussex PCT tender

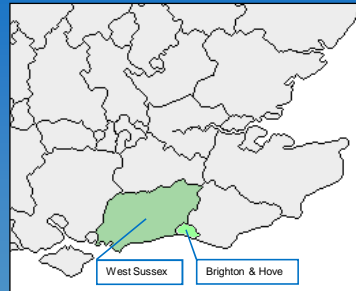

And now...

Larger area

Service equitable and accessible

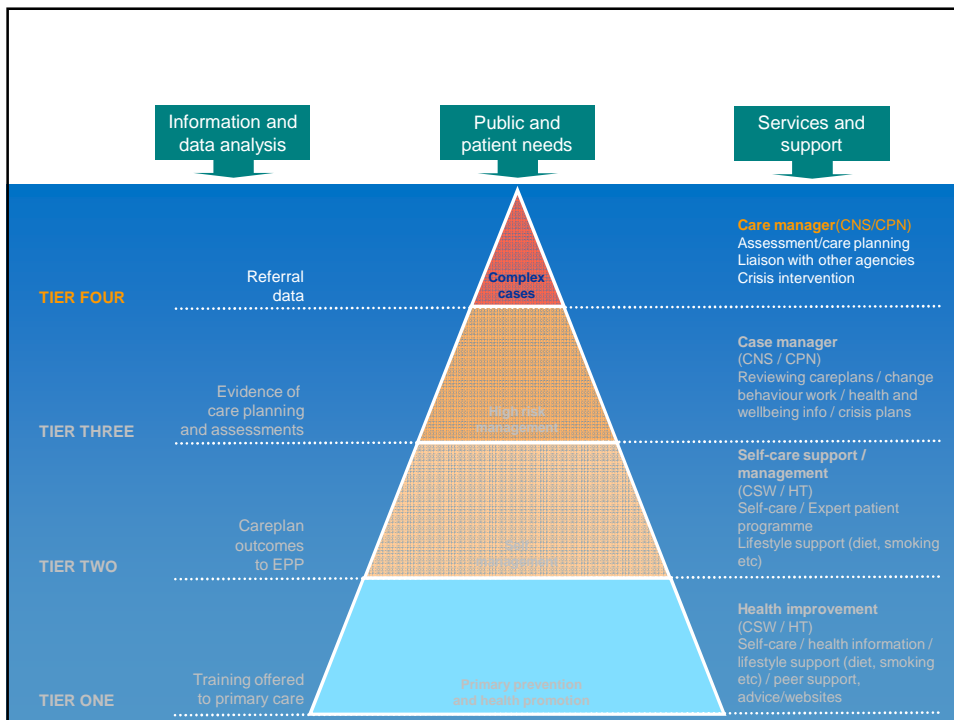

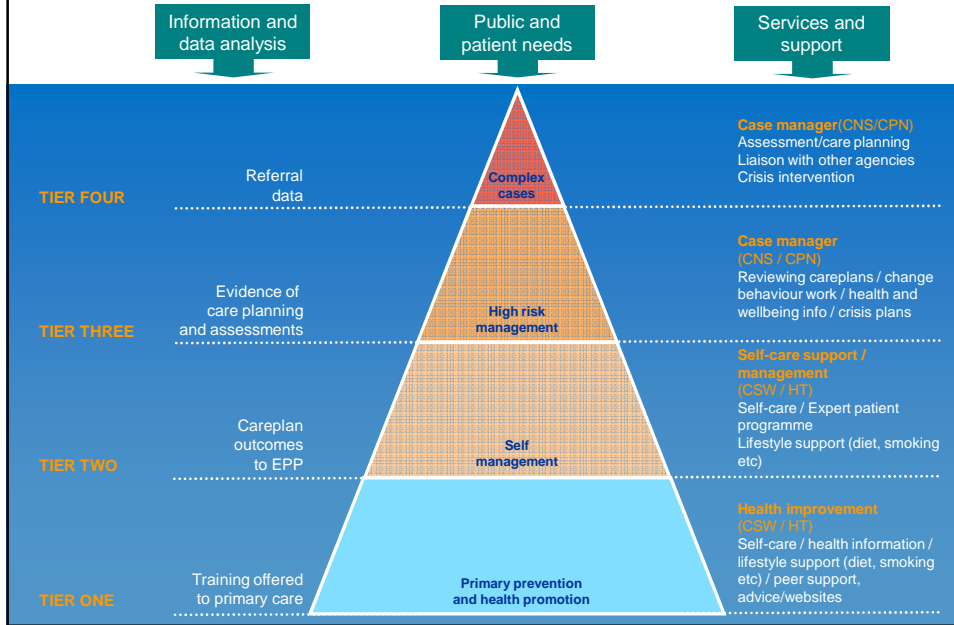

Incorporated sub contracts for range of services

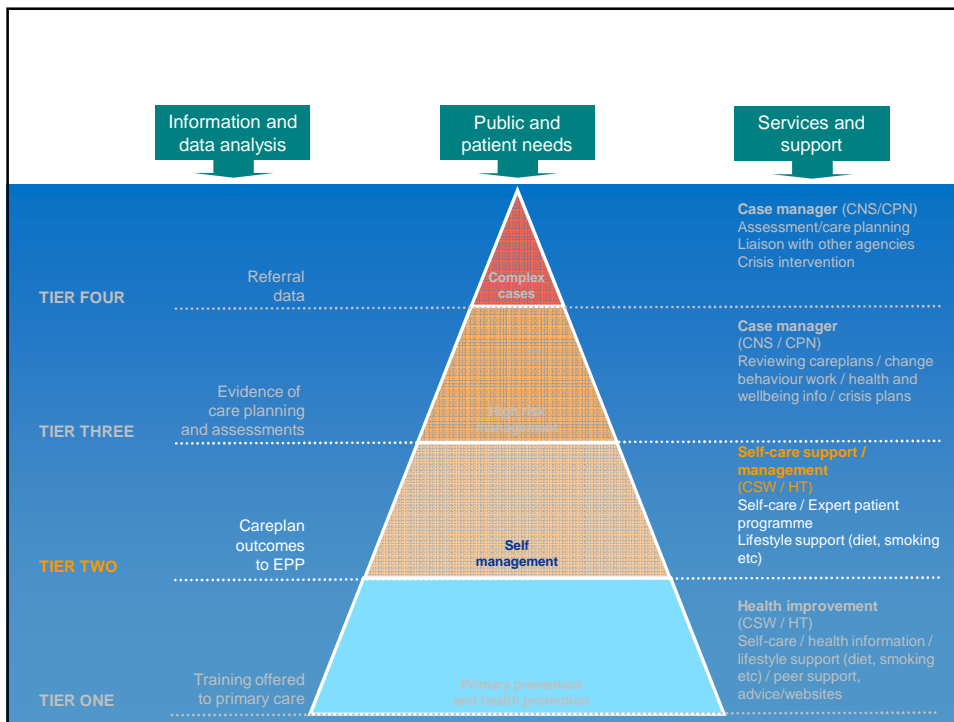

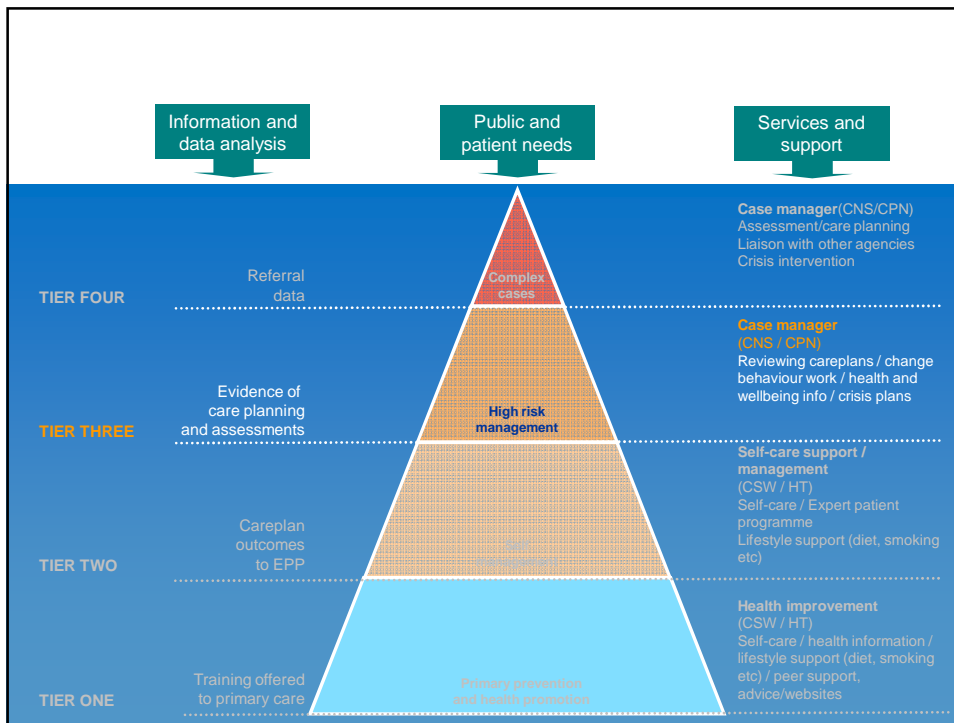

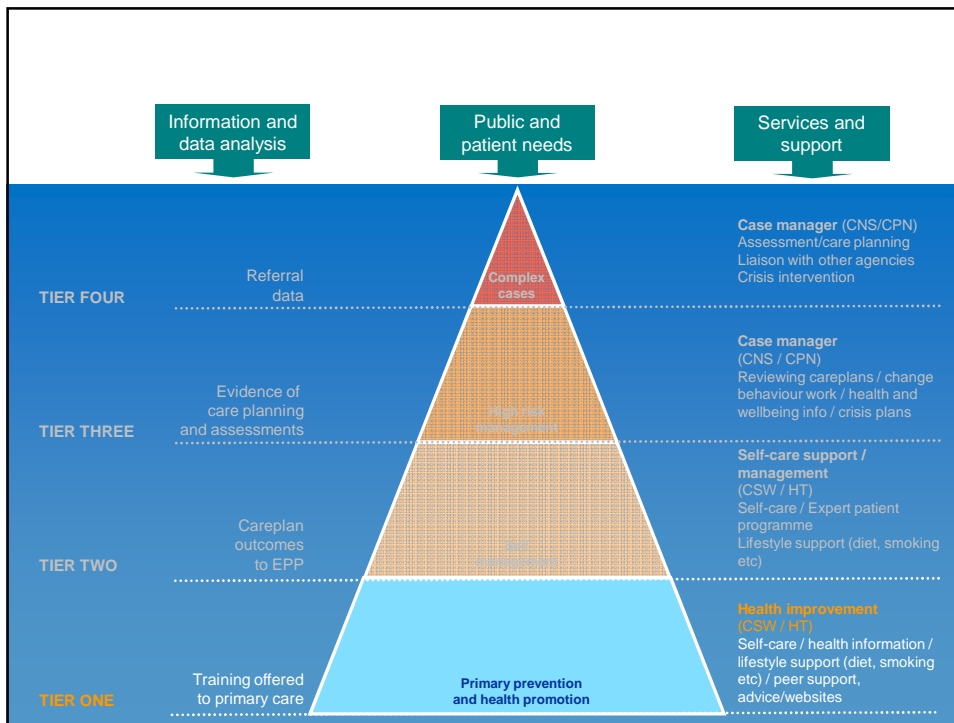

A multidisciplinary approach

Pathways of care

Examples of partnership working

Community Multidisciplinary Meeting

- Acute services
- Voluntary sector

Integrated Team meetings

Case conferences and proactive discharge planning

Contract meetings

Governance

Supervision for staff

Pathways

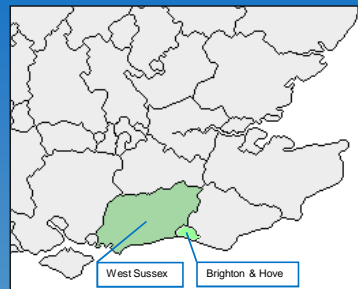

Service user involvement

Data / activity monitoring

Challenges

Developing a service in ever
changing climate –
the future of commissioners

Change management continues:
– support in new roles
– voluntary sector

Future model

Promoting self care model & patient choice around taking responsibility

Ongoing feedback from staff and service users

Acknowledgements and thanks to:

- Sue McGillivray
- All the staff in the HIV service in West Sussex and Brighton & Hove

Any questions?
